

May Family Project

All About Me

Date due: Monday, May 23rd

Dear Families,

For our final family project this year, you and your child will be creating a collage of his/her life. This is such a neat project for the students to do and share with the class.

Help your child select 4-6 important moments in his/her life. Each event should have a picture, be labeled with the event, and include the date. You can attach photos or draw pictures for each one and decorate any way you'd like. Use the paper provided for the collage.

Some ideas for events are: first word, first tooth, first steps, first haircut, first day of preschool, vacations, visits from relatives, first day of Kindergarten... anything like that.

All collages should have a title including the author displayed somewhere as well. For example, "Kevin's First Five Years" or "Eileen's Collage of Favorite Memories."

Be sure your child practices what he/she will say about each event when he/she presents it to the class. Family projects this year were intended to not only be a fun way to spend quality time together as a family, but to be creative, feel proud of the final project, create a darling Kinder keepsake, AND learn to sit in front of the class and share projects as a presenter. They've come a long way since our first "Decorated Pumpkin" sharing! They are so confident and articulate about their projects when sharing! I hope you've enjoyed our projects as much as I have!
